- Complete a pre and post on-line survey if for PTSD
- https://resona.health/ptsd-study-presurvey/
- Watch this orientation video
- Download the orientation slides

Success Tips

- Establish a routine
 - TV, reading, cooking, driving, walking
- Use a consistent charging location
- Turn the volume all the way up
 - Press the + button 5-6 times, it's the button closest to the blue LED. Lower power if need via your phone
- Time your session if using the Micro SD card
- How do you know it's working?
 - Slow flashing blue LED
 - It gets warm
 - Slight buzzing if held to your ear
 - Magnetometer app
- Please contact <u>info@Resona.Health</u> with any questions or concerns or if you need help of any kind
- Welcome to test <u>other protocols</u> in <u>Bluetooth</u> <u>mode</u> if desired (paired with your phone)

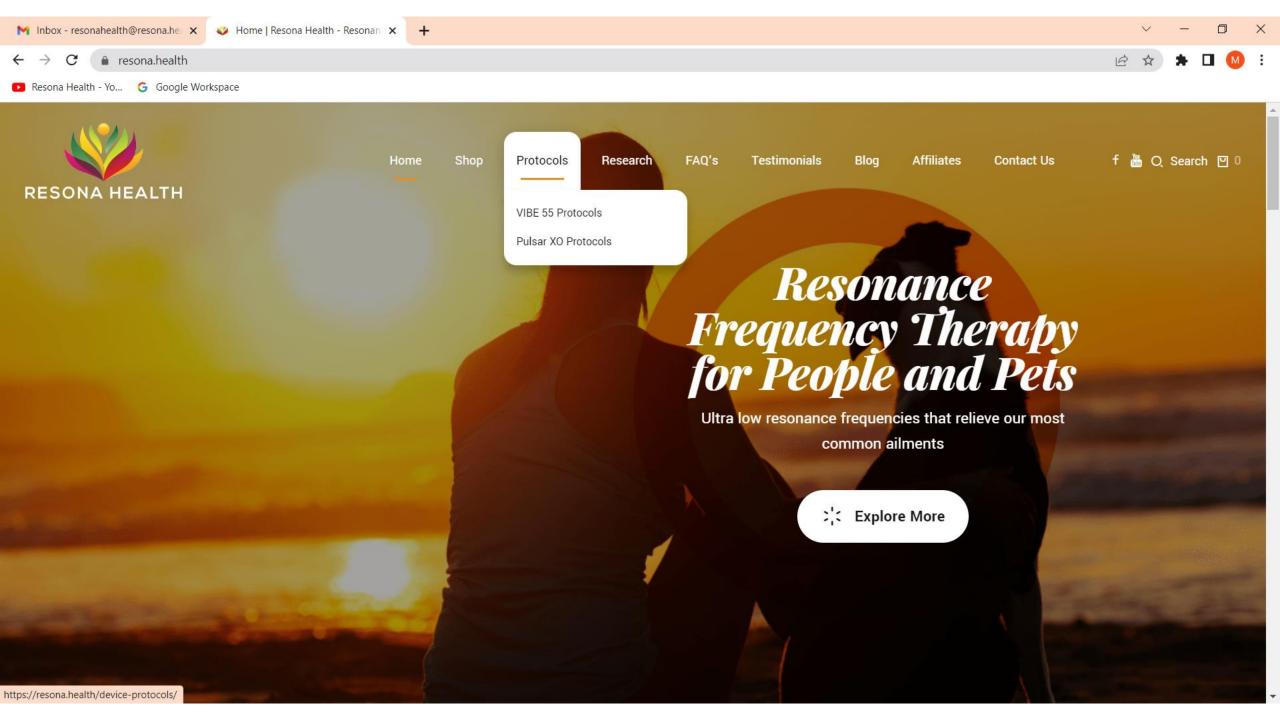

Common Mistakes

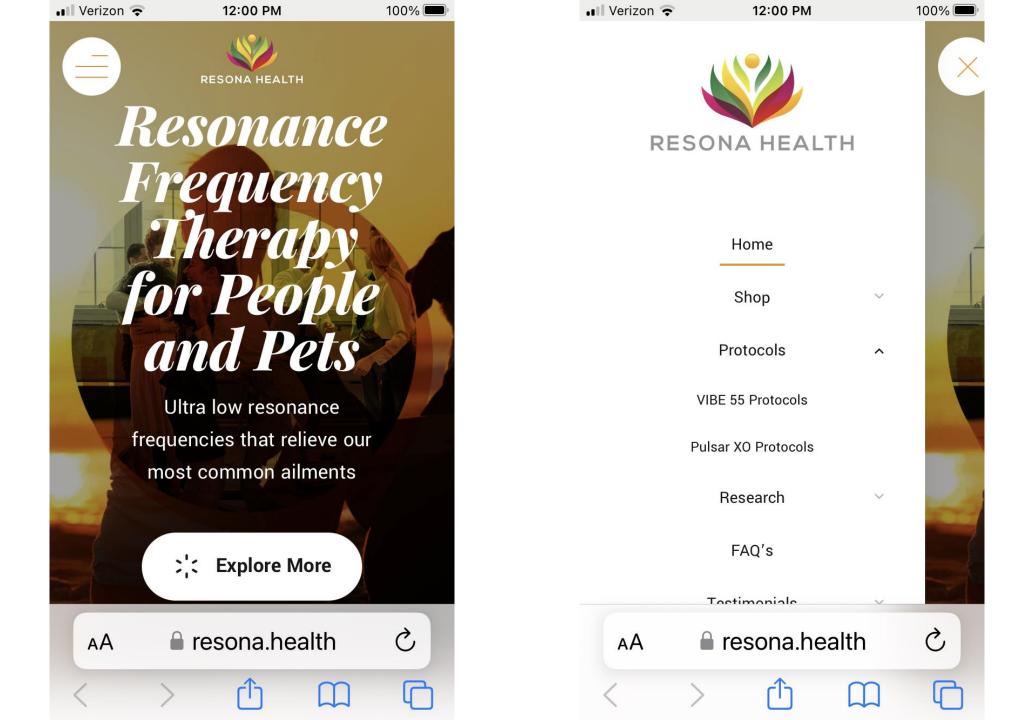

- Don't use the device 🕾
- Not asking questions
- Watch for the device in the mail
- Misplaced
 - Store it in the same place each night for charging
- Make sure the Micro USB cable inserted all the way in
 - Blink Red = Charging
 - Solid Red = Fully Charged
- Gently insert the Micro SD card correctly – don't force it

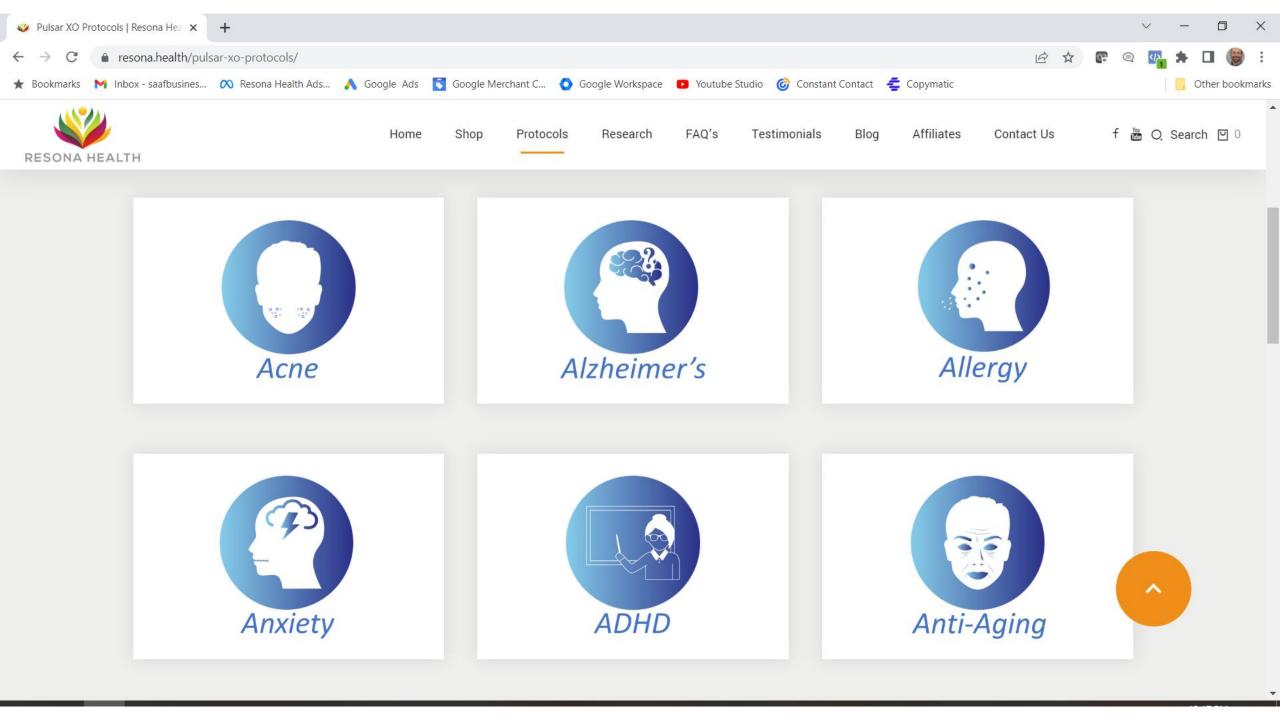

Past Concerns

- Bluetooth connection drops
- Don't put it in your bra
- Use it!
- Hydrate
- The device gets too hot
- Pairing issues? turn Bluetooth off then back on
- PTSD survey results
- Need to schedule one-on-one session before we ship
