

HEALING WITH FREQUENCIES: THE MODERN TECH THAT'S CHANGING LIVES

MARK L. FOX

THE ENGINEER MASTERMINDING
THE FUTURE OF ANXIETY RELIEF

Mark L. Fox isn't just an **engineer**, he's a **healer at heart**. A **military veteran** and **former Space Shuttle Chief Engineer**, Mark didn't set out to revolutionize wellness. It all started with his dog, Le Chien, who was suffering from arthritis. When the veterinary system offered no real solutions, Mark took matters into his own hands, designing **The VIBE... a PEMF therapy device** small enough to fit in your pocket but **powerful enough to calm the nervous system, reduce chronic pain, and restore emotional balance**. Mark's company **Resona Health** sparked a wellness revolution and has helped thousands of people and animals across the U.S. to manage anxiety, trauma, inflammation, and sleep disorders, without prescriptions or side effects. The VIBE uses **vibrational frequencies to stimulate the vagus nerve**, restore calm, and support the body's natural healing rhythm. With **\$5M+ in revenue, 60+ frequency protocols**, and an army of passionate users, Mark's device is leading the rise of frequency-based healing. He is an ideal guest for audiences of **integrative medicine practitioners, self-care enthusiasts, trauma survivors, and heart-centered healers**.

WHY HAVE MARK ON-AIR?

He brings both the technical know-how and the **heart-centered compassion** to make complex **healing accessible to all**. Audiences walk away inspired, informed, and ready to explore **frequency medicine** as a **powerful, natural solution for emotional and physical wellbeing**.

BOOK MARK ON HOW TO...

- Activate your inner healing code instantly
- Tap into trauma relief that fits in your pocket
- Start a wellness revolution within your hands
- Break the cycle of pain with waveform medicine
- Discover high-impact healing tech to bypass therapy
