MAXIMIZE YOUR EARNINGS — PROVEN STRATEGIES

Post Consistently

Share 2-3 images per week per platform. Consistency keeps you visible in the algorithm without overwhelming your audience.

Target the Right Communities

Join and engage in specific groups: Veterans (PTSD), Pet Owners (Dogs), Equestrian (Horses), and Biohacking/Wellness (BlueVibe).

Lead with the Pamphlet

The research-backed pamphlets build trust and credibility. Share them via email and direct messages for higher conversion rates than images alone.

Use Stories & Reels

Repurpose the social media images into Instagram Stories and Facebook Reels. Vertical video formats often get significantly more reach.

The Golden Rule

Every post, email, and message **MUST** include your unique affiliate link. If they don't click your link, you don't get the commission.
