Affiliate Partner Meeting

Three tools that do the selling for you

July 16, 2026

With Mark Fox · Founder, Resona Health

Live demos today — stick around for Q&A

Three ways to earn more with less work

1 • The Affiliate Ad Builder

Professional, compliant ads in about 60 seconds — live demo today. resona.news/RHAB

2 • The Content Library

Ready-to-post content you can grab, tag with your code, and share. resona.news/content

3 • PRANA for People

Our new AI Health Scan — a lead engine at pranaforpeople.com

Then: open Q&A — bring your questions and what's working for you.

Your personal ad agency — free, at one link

resona.news/RHAB

Pick a product and a goal

Choose what you want to promote and where you'll post it.

Get a proven ad

Built on the Facebook and Google ads we've spent millions proving — not guesswork.

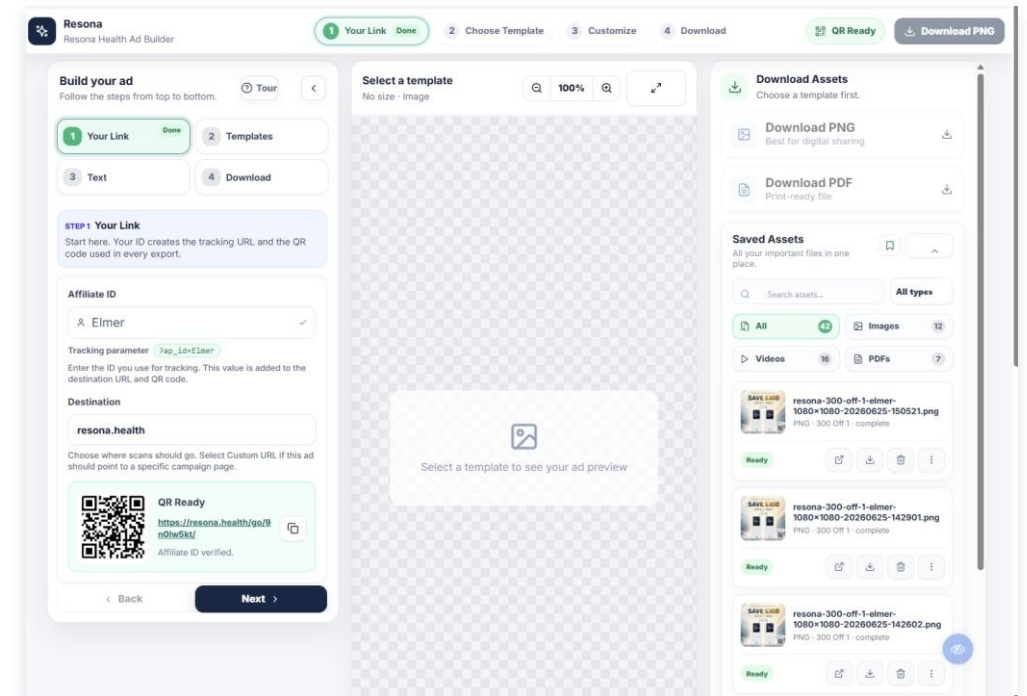

Your code is baked in

The link it produces already tracks the sale to you.

Post it anywhere

Facebook, Instagram, email, your blog — copy, paste, done.

Live demo in a minute — watch how fast this is.

The tool is built. The usage isn't.

92

affiliates have created ads

405

ads exported (PNG + PDF)

0

tracked clicks from those ads

Every ad you don't post is a commission you don't earn.

The ads are getting made — they're just not getting posted. The ask: post one this week.

What's waiting for you

Top-converting sales pages

Calm, sleep, pain, PTSD, migraine, EMF, wellness bundle — pages built to sell.

Blog posts that build trust

Education-first pieces for audiences that aren't ready to buy yet.

Ready-to-use content

Curated posts, images, and copy — real and AI-generated — download and share as-is.

The one rule to remember

Add your code to the end of ANY Resona.Health page:

```
/?ap_id=YOURCODE
```

Works on every product page, sales page, and blog post.

21-day cookie: they click once, you get credit for anything they buy in the next three weeks — even if your code disappears from the URL.

Where one link a week can live

Social bio

One link matched to your audience's biggest need — calm, sleep, or pain.

Email & newsletters

One sentence about the benefit + your link. That's a complete campaign.

Blog & link pages

Linktree, Lnk.Bio, your site — stack multiple pages, each with your code.

Groups & DMs

When someone asks 'what helps with X?' — answer with the matching page.

Sales pages sell. Blog posts educate. Use both.

PRANA Health Scan: tell it what's wrong, it tells you what helps

PRANAforPeople.com

BETA

1

They describe it

“What's going on?” — pain, stress, sleep, mobility — in their own words. No long survey.

2

AI interprets

A clear summary of their issue and why it may be happening.

3

Personal plan

A primary product recommendation + three personalized protocols, with the why.

4

Delivered twice

Results on screen and by email — with next steps built in.

The screenshot shows the PRANA Health Scan website. At the top left is the PRANA logo. At the top right is a button labeled "Analyze My Health". The main heading is "Understand Your Health in Minutes" with a subheading "AI-Powered Health Intelligence". Below this is a text prompt: "Describe what's happening. Our AI analyzes your concerns and provides personalized wellness recommendations backed by science." There is a "Start Your Scan" button. To the right is a "Start Your Scan" form with fields for "Your Name" (John Doe), "Email Address" (you@example.com), and "Phone Number (Optional)" ((555) 123-4567). Below these is a "What's Going On?" section with a text input field and a "Get My Insights" button. At the bottom, there are three icons: "Quick" (under 10 seconds), "Personal" (AI powered), and "Effective" (Science backed). A small note at the bottom right of the form says "Takes about 10 seconds. No credit card required."

In beta — use it and help us tune it before the full rollout.

Why this matters for you

It does the selling conversation

Your follower describes their problem; PRANA makes the personalized pitch. You just make the introduction.

You're in on the beta

Use it now, tell us what it gets right and wrong — AI plus live review on our end is tuning it before full rollout.

The easiest share you'll ever make

“Free AI health scan — tell it what's going on” is a far softer ask than “buy this device.”

It gets smarter over time

Every beta scan makes the recommendations more accurate — so it converts better every month.
