RESONA HEALTH

AFFILIATE TEAM MEETING · OCTOBER 2026 · BETA

Meet the Resona Health Affiliate App

Your ad is ready every morning. Share it in 3 taps.

resonahealthaffiliateapp.com

What the app does for you

Every morning a fresh 30-second Resona Health video is waiting in the app, with your personal affiliate link already built in. Open the app, tap Share, post. That's it.

A new video every day

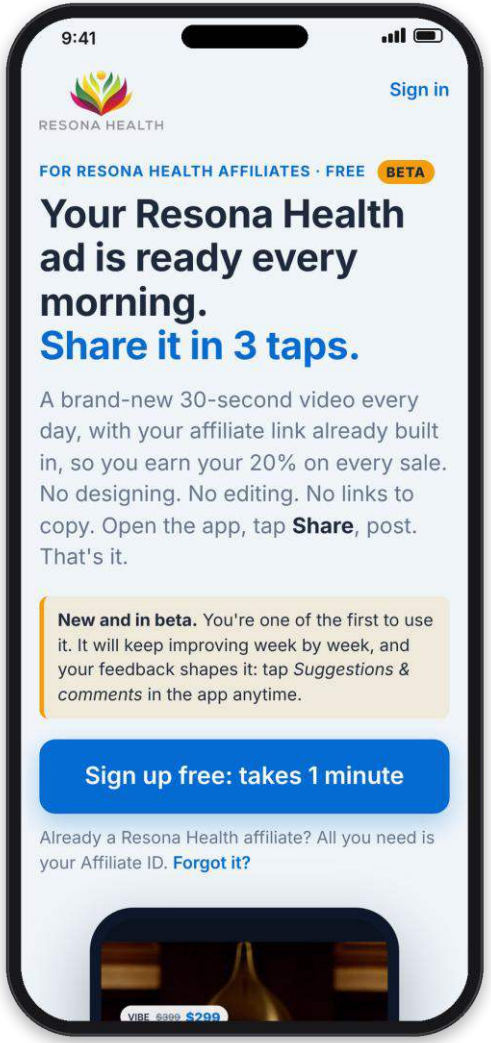

Professional 30-second videos with captions, made for you overnight. A different product and story every day.

Your link is built in

Every video goes out with your own link. Friends tap Learn more and land on the right Resona Health page, credited to you.

Your 20% on every sale

The same commission you already earn as a Resona Health affiliate. The app just makes sharing effortless.

From up to 13 steps to 3 taps

Sign up once: about one minute

1

Join the Resona Health affiliate program

Free, at resona.health/join-our-affiliate. Already an affiliate? Skip this.

2

Open resonahealthaffiliateapp.com

On your phone, and tap Sign up free.

3

Enter four things

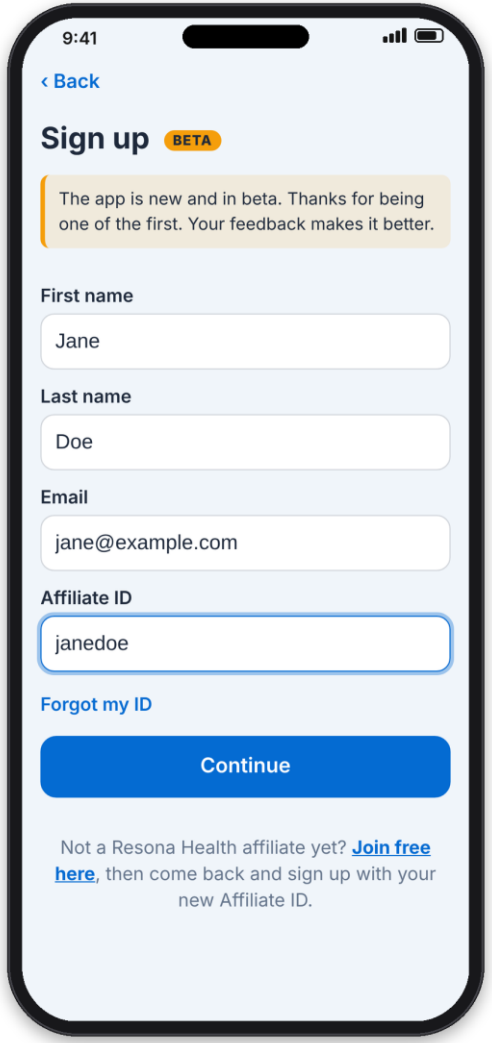

First name, last name, email and your Affiliate ID.

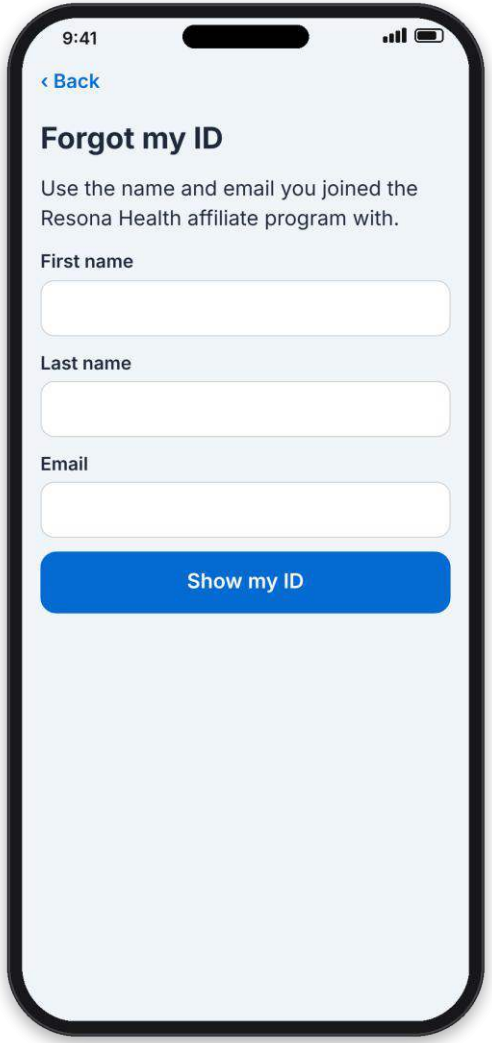

4

Forgot your Affiliate ID?

Tap Forgot my ID, enter your name and email, and it appears on screen.

No passwords. No social media accounts to connect. You stay signed in on your phone.

Not in an app store, on purpose

Every Resona Health app is built outside the App Store and Google Play, with our own technology.

We own it

No gatekeeper deciding what we can build, or when.

More flexibility

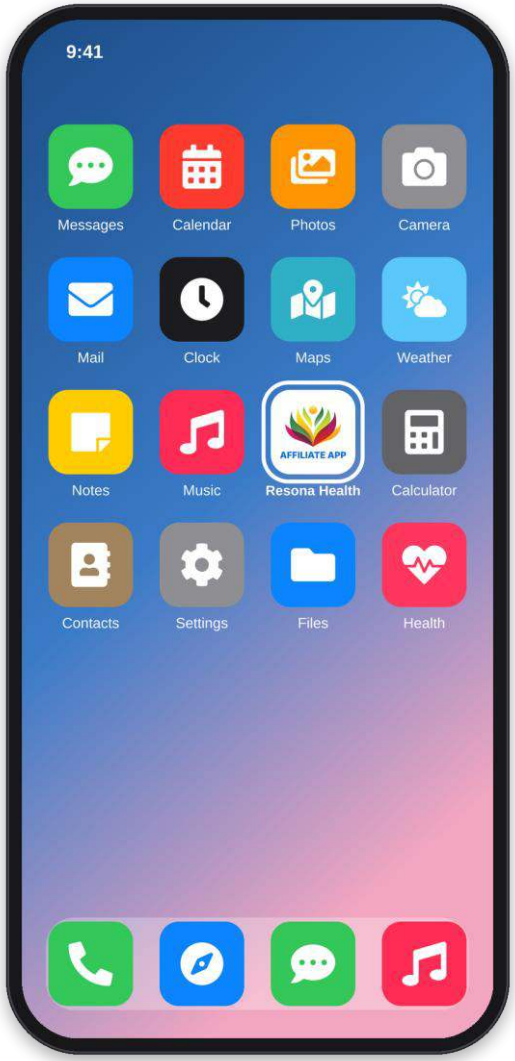

Improvements reach you right away: nothing to update, no waiting for approval.

No app store fees

Nothing paid to Apple or Google on what we build for you.

Looks and works like any other app

Once it's on your Home Screen it has its own icon and opens full screen. You'll never know the difference.

Put the app on your phone

The Resona Health Affiliate App icon

No download. It opens in your phone's browser, and the icon makes it one tap away.

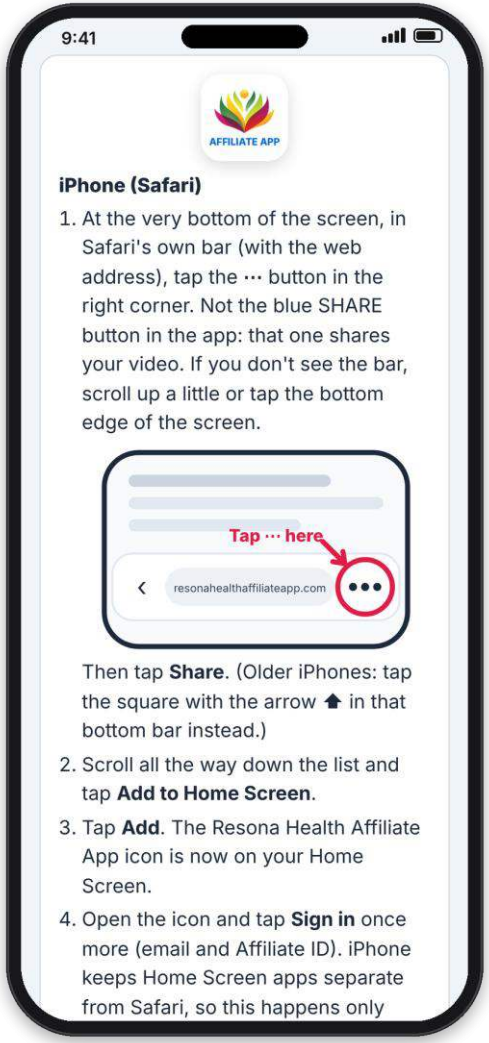

iPhone (Safari)

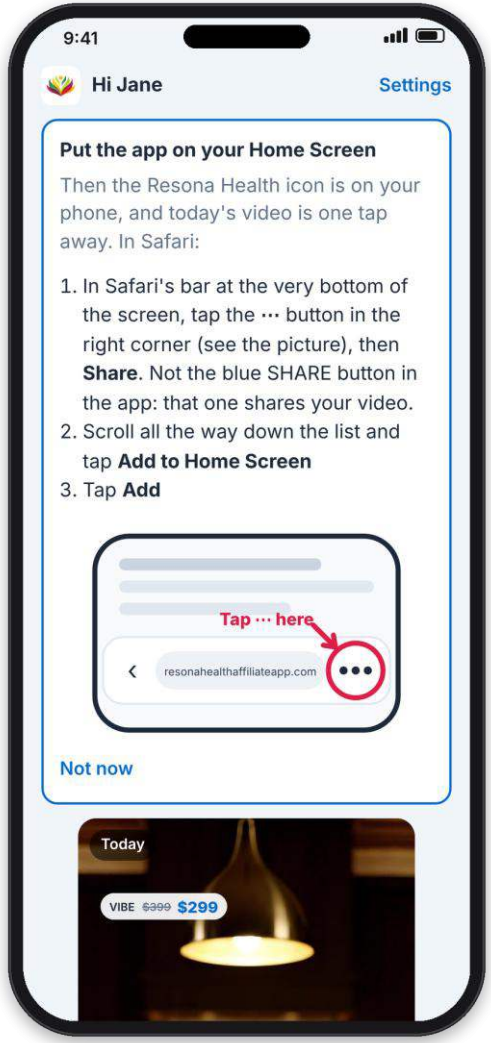

1. Tap ··· in Safari's bar at the very bottom
2. Tap Share
3. Scroll down: Add to Home Screen
4. Tap Add, open the icon, sign in once

Android (Chrome)

1. Tap the ⋮ menu, top right
2. Tap Add to Home screen (or Install app)
3. Tap Install

Tip: use Safari's own ··· button, not the blue SHARE button inside the app (that one shares your video).

Facebook, Messages, WhatsApp: one tap

The video picture, a play button and the price. Your link is already behind it.

1 Tap SHARE, pick Facebook

2 Your friends see this in their feed

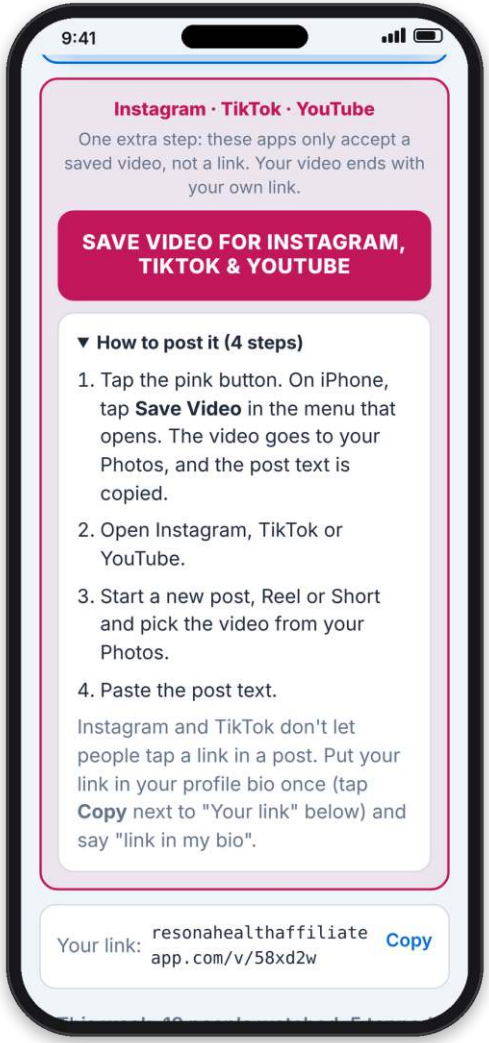

3 They watch, tap Learn more

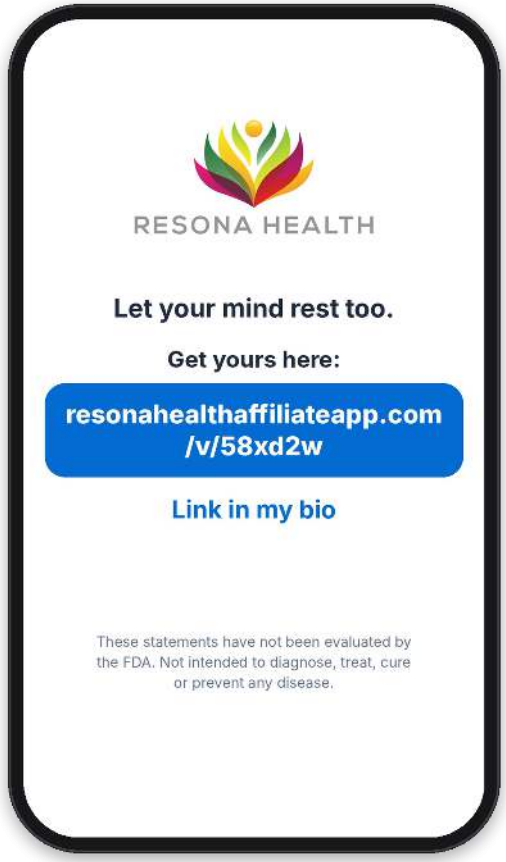

Instagram, TikTok, YouTube: one extra step

Their rules, not ours: these apps only accept a saved video, and Instagram and TikTok don't let anyone tap a link in a post.

1. Tap the pink SAVE VIDEO button. On iPhone, tap Save Video.
2. Open Instagram, TikTok or YouTube.
3. Start a new post, Reel or Short and pick the video.
4. Paste the post text (it's already copied).

Put your link in your profile bio once and say "link in my bio". Your video ends with your own link in big letters.

Always the right price. Always checked.

Right price, every time

Every Resona Health sales page is checked every night and every 3 hours. Friends only land on pages whose prices match the shop today.

Approved by our team

The Resona Health team reviews and approves every video before it reaches you.

No medical claims

Every script is checked automatically: no disease or cure claims, and the FDA statement on every video.

Real reviews only

Customer quotes come word for word from Trustpilot, and only about the product in that day's video.

It's a beta: tell us what you think

Tap Suggestions & comments at the bottom of the app: thumbs up or down on today's video, a message, even screenshots. Mark L Fox reads every message.

Already built from your feedback in the first days:

- Save the video for Instagram, TikTok and YouTube, ending with your own link
- My stats: who watched, who tapped Learn more, and where
- Clearer steps (with a picture) to put the icon on your phone
- Honest counts: each person once, your own visits left out
