WHY EVERY SHARE COUNTS

If 1 in 4 of us shared every day

TODAY

26

sharers a day

AT 1 IN 4

70

sharers a day

Each share reached about two people this week. Nearly three times the sharers means nearly three times the people seeing a Resona Health video every day.

A QUESTION WE KEEP GETTING

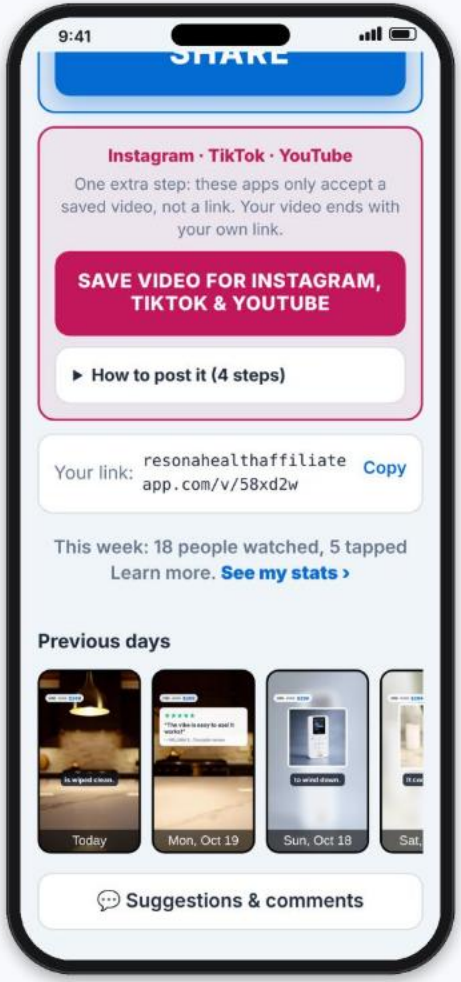

“Is that short link really mine?”

Yes. The code at the end of your link, like /v/58xd2w, is your affiliate ID in disguise.

1. **Friends tap your link**
   They land on the right Resona Health page.

2. **Your 21-day cookie is set**
   The same cookie as your regular affiliate link.

3. **The sale is credited to you**
   Paid by the affiliate program, as always.

YOUR NUMBERS, CLEANED UP

Click counts now show real people only

What changed

Search engine robots were visiting affiliate links and showing up as clicks. They are now blocked and left out of the counts.

What you may see

Some click numbers will drop. Nothing was lost: the clicks that went away were never people.

Why it matters

Now your clicks tell you how many real friends you reached.
